Trade-marks Journal

Vol. 64 No. 3248

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), lifesaving and teaching apparatus and instruments, namely, internal combustion engines, power transmissions and sub-assemblies, dilometer recorders and mileage recorders, speedometers, tachometers, cooling water regulators, thermometers, thermostats, air conditioning controls, glow plug monitors, oil and compressed air pressure gauges, hazard warning lights, fuel content indicators, transmission selector indicators, tachographs and dipsticks, oil dipsticks, turn indicators; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, fuel cells, car batteries, electricity conduits, connectors, control panels, switches, distribution units, electricity indicators, electricity inverters, electricity transformers, junction boxes, limiters, reducers, solar panels, switchboxes, terminals, voltage blocks, wire connectors, electrical cables and wires, grounding straps and grounding wires, electrical resistors, solenoids, ignition coils, electrical fuses, fuse boxes , electrical plugs, combination plugs, electrical sockets, electrical sockets for trailers, electrical capacitors, carbon brushes, contact plates and insulating plates, relays, contact breakers, claw-type cable connector plugs, cable sleeves; apparatus for recording, transmission or reproduction of sound or images, namely, radio broadcast receivers, loudspeakers, radio antennas, television receivers, radiotelephony sets for use in automobiles, telephone sets for use in automobiles; intercommunication systems for use in automobiles, namely, tape recorders, flash memory cards, memory card readers, cameras, cell phones, PDAs, video recorders, radios, video players, televisions, recording discs, namely, blank CD's, DVD's and digital optical disks, portable media players, namely, mp3 players, mp4 players, portable DVD players, electronic tablets, and computers; recording disks, namely, CD's, DVD's and digital optical discs providing instructional information on automobile navigation; magnetic data carriers, namely, credit cards, debit cards and key cards; cash registers; calculating machines, namely, calculators; data processing equipment, namely, PDAs, worldwide telephones and cellphones featuring data, route planning information and factual information about automobiles; computers; interactive computer application software for use in fixed, mobile and handheld devices, namely, smartphones, electronic tablets, computers, laptops and cell phones that enables the collection, processing, transmission and dissemination of operational data for obtaining travel and transportation information in the field of car rentals, mobility options, vehicle parking, chauffeur services, taxi ordering and carpooling; interactive computer application software for use in fixed, mobile and handheld devices, namely, smartphones, electronic tablets, computers, laptops and cell phones that provides intelligent travel and transportation solutions in the field of car rentals, transportation connections, vehicle parking, chauffeur services, taxi ordering and carpooling; interactive computer application software for use in fixed, mobile and handheld devices, namely, smartphones, electronic tablets, computers, laptops and cell phones that enables owners and users to connect remotely with their vehicle to access vehicle information and control functions; interactive computer application software for use in fixed, mobile and handheld devices, namely, smartphones, electronic tablets, computers, laptops and cell phones that connects users to tele-diagnosis services and emergency calls for the purposes of accident, maintenance and breakdown management; interactive computer application software for use in fixed, mobile and handheld devices, namely, smartphones, electronic tablets, computers, laptops and cell phones to provide vehicle location and recovery; interactive computer application software for use in fixed, mobile and handheld devices, namely, smartphones, electronic tablets, computers, laptops and cell phones to provide online access to customer service and automated booking services, enabling customers to find and contact a partner of their choice online; interactive computer application software for use in fixed, mobile and handheld devices, namely, smartphones, electronic tablets, computers, laptops and cell phones that links to service providers of car rental, short term car rental, car parking, chauffeur services, taxi service and public transport; downloadable application software for use in fixed, mobile and handheld devices, namely, smartphones, electronic tablets, computers, laptops and cell phones that enables the collection, processing, transmission and dissemination of operational data for obtaining travel and transportation information in the field of car rentals, mobility options, vehicle parking, chauffeur services, taxi ordering and carpooling; downloadable application software for use in fixed, mobile and handheld devices, namely, smartphones, electronic tablets, computers, laptops and cell phones that provides intelligent travel and transportation solutions in the field of car rentals, transportation connections, vehicle parking, chauffeur services, taxi ordering and carpooling; downloadable application software for use in fixed, mobile and handheld devices, namely, smartphones, electronic tablets, computers, laptops and cell phones that enables owners and users to connect remotely with their vehicle to access vehicle information and control functions;
